

PERFECT STORM

J 2 3 4 Q K 7 8 9 10 in every suit · no aces, 5s or 6s · black cards deal from the TOP, red from the FACE

HOW TO CALCULATE

Jack = 1 · Queen = 5 · King = 6 — number cards are themselves.

♦♣ = value + 20

♥♠ = value + 10 (number 20 or under)

♥♠ = value + 30 (number 21 or over)

q = card position – named number

positive → that many quads, rest single pairs · **negative** → all single pairs, then split that many blanks · **zero** → straight through
